**\*Required Information**

Students who wish to be classified as fully online students must submit this **Fully Online Student Declaration Form** to the Office of Housing & Residence Life prior to registration. Fully online students are defined as any student who takes exclusively online classes.

To be classified as fully online, a student must:

- Submit this request form to Housing & Residence Life via email at [housing@mga.edu](mailto:housing@mga.edu);
- Be majoring in a program that can be completed online or intend to complete core classes online before transferring;
- Register for all online courses across consecutive terms.

**Students taking online courses for one term only do not qualify as fully online.**

If a fully online student takes an on-campus class, he or she will lose his or her housing exemption. The student will then have to submit a new Fully Online Student Declaration Form. The Office of Housing & Residence Life will review the student's situation and make a determination as to whether he or she may be clarified as fully online.
