

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for GA0230003 MIDDLE GEORGIA STATE UNIVERSITY

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We did not complete the required monitoring or testing for LEAD & COPPER that was due during the 1/1/2020-12/31/2022 compliance period and therefore cannot be sure of the quality of your drinking water during the last compliance period. *

What should You do? There is nothing you need to do at this time.

The table below gives more detailed information about this monitoring violation:

Contaminant?	Required # of samples that should have been taken?	# of samples that were taken (if any)?	When samples should have been taken?	When samples were taken (if any) or when will samples be taken next?
Lead	10	0	Between June 1-Sept 30 of scheduled compliance year	2023
Copper	10	0	Between June 1-Sept 30 of scheduled compliance year	2023

What is being done? We have written new sampling procedures and will be sampling this year.

For more information, please contact Rick Jeffares at 770-316-2691 or rjeffares@turnipseed.com

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail. *

Date public notice was distributed: 5/1/2023
