## Creation

The *Comfort of Recovery* quilt was created as a collaborative project between R2ISE and the Carlos Museum. R2ISE is a nonprofit organization dedicated to providing a secure space for individuals recovering from substance abuse disorders and mental health challenges. R2ISE uses art as a method of healing and recovery from addiction.

## Hope

Our hope is that *The Comfort of Recovery* will serve as a reminder that recovery is possible when communities dedicate their creativity to bringing change. May we illustrate the power of recovery, share hope, diminish stigma, and provide comfort to families who have lost loved ones to addictive diseases and or mental health challenges.
